VERY FISHY.

Colored Man Reported to Have Found a \$5,000 Package Near Dover.

One of THE LEADER's good friends who has never been charged with relationship to Ananias brought to this office yesterday the following sensational story, which at the time it was alleged to have occurred was duly mentioned in THE DAILY NEWS.

Robert Stroud, colored, is reported to have found an Express package lying on the C. and O. Railway between Dover and South Hilly.

He picked it up and turned it over to the C. and O. Agent at the latter place, who promptly and generously rewarded his honesty with \$2 cents.

The package is said to have contained \$5,000 in one of Sim's artistic greenbacks.

Of course the South Hilly Agent is out of pocket just the amount he paid to Mr. Stroud, for "senseless corporations" never give up anything.

THE LEADER does not vouch for the story but inclines to the belief that \$5,000 packages are not generally stored loosely about Express cars with the possibility of falling off anywhere along the line.

They are generally placed in iron safes before leaving the express office and the chances are largely that somebody has been hoodwinked by a most wonderful story or that our informant has just awakened to the fact that an ordinary package of no real value was found near Dover by a colored man more than two weeks ago and turned over to the proper authorities.

A. R. De Fluitt, editor of the Journal-Expositor, Ohio, suffered for a number of years from rheumatism in his right shoulder and side. He says "My right shoulder was entirely useless. The number of sick patients treated was 242; the number of injured men, 128.

The number of injuries treated outside of the hospital was 685. Seven hundred and seventy-seven cases of minor injuries were treated by surgeons of the Company along the line of the road.

Of the 11 deaths 9 were employees and 2 were outside patients. One employee died from injury and 8 from disease. The two outside patients died from injuries.

The general hospital is located at Clifton Forge, but auxiliary hospitals for injured employees that cannot be transported to the general hospital are located at Norfolk, Va., Richmond, Va., Point Creek, W. Va., Corning and Lexington.

CHICAGO BUTCHER

Albert Becker Broke Down and
Confessed to Killing His
Wife, Teresa Becker.

HE MURDERED HER ON JANUARY 27.

Becker Says They Walked on the Via-
dent, Quarreled and He Threw
Her Into the Lake.

The Story Is Looked Upon by the Officers
With Suspicion. All the Evidence
They Say, Indicates a Far More
Brutal Method of Murder.

CHICAGO, March 2.—Albert Becker, the South Side butcher, who has been in custody for a week on suspicion of having murdered his first wife, Teresa Becker, broke down Wednesday night under the long-continued cross-questioning of the police and made a complete confession.

"I killed her on January 27," said Becker, definitely. "We were walking on the Randolph street viaduct and began quarreling. I became angry and threw her into the lake. Then I went home."

Since Becker's arrest, his second wife, 17-year-old Ella Suterlin, has been in custody. Becker inquired continually for her, asking the police why she was not released. He was always given an evasive answer, but apparently receiving the impression that Eda would in some way be connected with the disappearance of his first wife, Becker, according to the officers of the police, finally, finding himself unable to resist, told a story that reflected as lightly as possible upon himself.

Becker's story of the crime is looked upon with suspicion by many of the officers who have been working on the case. All the evidence gathered has indicated a far more brutal method of murder than drowning and the opinion is expressed that Becker, finding himself cornered, told a story that reflected as lightly as possible upon himself.

THE PUBLIC DEBT.

of \$3,279,641. A corresponding decrease in cash.

WASHINGTON, March 2.—The monthly statement of the public debt shows that at the close of business on February 28, 1899, the debt, less cash, in the treasury, was \$3,279,641, an increase during the month of \$3,279,641. Interest bearing debt, \$1,040,738,270.
Debt on which interest has ceased since maturity, \$1,231,679.
Total, \$2,272,417,949.

This amount, however, does not include \$333,528,513 in certificates and treasury notes offset by an equal amount of cash in the treasury. The cash in the treasury is recapitulated as follows: Gold, \$294,916,476; silver, \$307,531,887; paper, \$50,038,458.

Bonds, deposits in national bank depositories, disbursing officers' balances, etc., \$63,791,150. Total, \$908,957,913, against which there are demands liabilities outstanding amounting to \$639,247,438, leaving a net cash balance of \$269,710,475.

THE CRISIS IS PAST.

Mr. Kipling's Condition Better. Temperature and Pulse Low and in Every Direction Improvement Is Marked.

New York, March 2.—The condition of Rudyard Kipling was very much improved Wednesday night. The crisis in the disease was passed Wednesday morning. Tuesday night's dispatches indicated that the crisis was close at hand and that it was because of this the physicians displayed so much anxiety concerning the outcome. At 2:15 Wednesday afternoon the following bulletin was received:

"Mr. Kipling has gained since this morning. The temperature and pulse are low and in every direction the improvement is noted."

"E. D. JANNEY."

"THEODORE DUBHAM."

This was the ninth day of Mr. Kipling's illness. In pneumonia the crisis is usually reached by the seventh or eighth day, but it may be delayed until the fourth. Therefore, there were 48 hours during which the physicians hardly left the patient's side. During that time Kipling suffered greatly by the long-continued cross-questioning of the police and made a complete confession.

"I killed her on January 27," said Becker, definitely. "We were walking on the Randolph street viaduct and began quarreling. I became angry and threw her into the lake. Then I went home."

Since Becker's arrest, his second wife, 17-year-old Ella Suterlin, has been in custody. Becker inquired continually for her, asking the police why she was not released. LORD HERSHEL IS DEAD.

He Was Stricken by Heart Trouble in
Washington. Was Chairman of the
Joint High Commission.

WASHINGTON, March 2.—Lord Herschel, chairman of the Canadian branch of the joint high commission, died suddenly at the Shoreham hotel, shortly after 7 o'clock Wednesday morning.

About February 4, while returning to his hotel from a visit to Senator Gray, Lord Herschel fell on the pavement and broke his hip, and had since been confined to his room. He was recovering from this injury, however, Dr. W. F. Johnson, who was called in Wednesday morning, says the accident to his hip had nothing to do with his disease.

Dr. Hjalsted, of Baltimore, had been attending him for the broken hip, and up to Wednesday his improvement seemed steady and rapid. At 6 o'clock, shortly after he awoke from a refreshing sleep, Lord Herschel complained of difficulty in his breathing. This became rapidly worse, and at 6:30 Dr. Johnson, who had been consulting with Dr. Hjalsted, was hastily summoned. The physician reached Lord Herschel's bedside shortly before 7. The distinguished patient was unconscious and died within a few minutes.

In the senate Wednesday afternoon Mr. Fairbanks offered the following resolutions:

"That the senate has heard with profound sensibility of the death of Lord Farrer Herschel, an eminent jurist and statesman of Great Britain, formerly lord high chancellor, a member of the United States and British joint high commission.

"That the president of the senate is requested to convey to her majesty, the queen of Great Britain, the sympathy of the senate of the United States in the great loss which she and the people of Great Britain have sustained by the death of Lord Herschel," adopted.

THE ARMY BILL.

House Military Committee Agrees
to Accept the Senate Measure
Without Amendment.

NO CHANCE OF AN EXTRA SESSION.

Session of the Committee Was Very
Spirited and Representative Marsh
at One Point Withdrew.

The Vote on Agreeing to Senate Bill Was
10 to 3—Three Democrats With Seven
Republicans Voted For—Two Dem-
ocrats, One Republican Against.

WASHINGTON, March 2.—The house military committee has agreed to accept the senate army bill without amendment.

Great interest was manifested in the meeting of the house military committee, as it was felt that a complete acceptance of the senate bill largely removed the chance of an extra session. The session of the committee was very spirited, and at one point Representative Marsh, of Illinois, withdrew on the ground that the course of the committee in adopting an amendment would open up the whole controversy and precipitate an extra session. After his withdrawal the amendment was reconsidered and withdrawn. Mr. Marsh returned to the committee. The final vote on agreeing to the senate bill was 10 to 3. Three democrats, Butler, Cox and Jeff, voted with seven republicans, Lutz and Hays, and one republican, Brownlow, voted in the negative.

The senate army bill was passed by the house Wednesday afternoon by a vote of 30 to 22.

THE POPE'S CONDITION GOOD.

A Troublesome Cyst of Long Standing
Removed by the Operation. It Is Thought
He Will Survive the Operation.

Rome, March 2.—Pope Leo was resting easily Wednesday evening. A cyst was removed from his hollows. The cyst had been forming probably for 30 years. The only persons present at the operation were Dr. Mazzoni, Dr. Lapponi, who assisted, and Dr. Pio Centra, the pope's personal attendant. At half past nine his holiness was carried on a litter to a window of his apartment. Smiling, he said to the doctors:

"Do you want to play these tricks upon me at my age?"

Then he lay down composedly on his right side. Although the courage which the patient displayed gave the doctors courage, they feared to use chloroform, and used instead a liquid anesthetic consisting of cocaine, chloride of sodium and morphia.

Going to the size of the growth the excision occupied some time, but Dr. Mazzoni quickly traced the extent of the growth and the actual operation lasted 15 minutes. The pope displayed great fortitude. After the bandaging he was carried back to the bed and once the feeling of faintness due to shock and loss of blood had passed away he appeared quite calm. The fever quickly subsided, confirming the diagnosis of the doctors.

LONDON, March 2.—The Rome correspondent of the Daily Mail says: "The pope is still suffering from difficulty in respiration and from pain in the lumbar region. Dr. Mazzoni has informed me that it is possible pneumonia may disclose itself. Altogether the progress of the disorder is problematical. When he consented to the operation, his holiness said to Dr. Lapponi: 'It is a truly disagreeable thing to me to separate myself from this cyst just when I am about to go, after having had company for a third of my life.'"

During the operation he cried out:
